PROFESSIONAL SUMMARY

Frontend Developer specializing in Angular, TypeScript, and JavaScript with demonstrated experience building responsive, scalable web applications and user-centric interfaces. Delivered a production hotel booking platform with Razorpay payment integration, JWT authentication, and a 30% gain in user engagement. Proficient in REST API integration, UI/UX design principles, and Agile workflows. B.Tech in AI & Data Science (2026), certified in Frontend Development, UI/UX Design, and AWS.

TECHNICAL SKILLS

Languages	JavaScript (ES6+) · TypeScript · HTML5 · CSS3
Frameworks	Angular · Bootstrap · Angular Material
Tools	Git / GitHub · Postman · AWS (Basic) · Docker (Basic) · EXCEL
Integrations	REST APIs · Razorpay Payment Gateway · JWT Authentication
Database	MongoDB (Basic)
UX / Design	Figma · Wireframing · Prototyping · Responsive Design · Mobile-First

PROJECTS

Book My Hotel — Full-Stack Hotel Booking Platform (ashwin-mkr.github.io/bookmyhotel/) April 2025

Stack: Angular · TypeScript · JavaScript · HTML5 · CSS3 · Bootstrap · REST API · Razorpay · JWT · GitHub · Docker · Kubernetes

- **Boosted user engagement by 30%** through a fully responsive, mobile-first UI using Bootstrap and custom CSS.
- **Integrated Razorpay payment gateway** with 100% transaction success rate for secure end-to-end digital bookings.
- **Built a feature-rich admin panel** for real-time room management, offers, coupon configuration, and booking analytics.
- **Implemented JWT authentication & REST API integration** for secure, token-based user sessions.
- **Automated PDF invoice generation** for booking confirmations, reducing post-booking support queries.
- **Containerized with Docker** for scalable, production-grade deployment.
